

Leader in Linings  
Since 1955

**We Innovate...**

GOAD'S Patents:

#7,111,497, #8,133,345, #8,925,754,  
#8,955,711, #9,278,478

### SPACE TANK<sup>®</sup> SYSTEM

- Double Up with Secondary Containment at Tank Itself
- Full Solution \*TANKey\* Inspector Leak Checking

\*U.S. PATENT NO. 7,111,497

### N-FUZE<sup>®</sup> LINING

U.S. PATENT NO. 8,133,345 & 9,278,478

Carbon steel tank lined with 3/16" thick High Performance Koroseal<sup>®</sup> with full-size panels, N-FUZE<sup>®</sup> extrusion welds and molded corner inserts, and LFP Teflon<sup>®</sup> Solution Skirt for extreme attack at air interface.

**No Weld Failures  
GUARANTEED**

### DuoBear<sup>®</sup> Box Liner

DuoBear<sup>®</sup> Box Liners are fabricated from Type II High Impact Rigid PVC that is Lined with 3/16" thick High Performance Koroseal<sup>®</sup>. These Rigid Box Liners can be fabricated and shipped to drop into your existing tank. Combining the drop in liner ease of install with the performance of GOAD's N-FUZE<sup>®</sup> Bonded Koroseal<sup>®</sup> Linings. Double Barrier protection.

### KYNAR<sup>®</sup> (PVDF) Box Liner

GOAD's Kynar<sup>®</sup> (PVDF) Box Liners are fabricated with machine bends, butt welds, and extrusion welded sidewall to bottom construction with molded corner inserts. We eliminate hand welds and their associated failures.
